

Corporate Environmental Policy

Our Philosophy

We honour, preserve and care for our world as a created gift.

Policy Statement

In keeping with our philosophy, our policy is to conduct our business in an environmentally responsible manner to protect the earth and its natural resources which we share with all humanity. We seek to improve personal and community wellbeing and care for, and live in harmony with, our environment through positive and sustainable actions.

What this means for our environmental program

In addition to complying with all applicable environmental laws and regulations, we commit to:

- Make environmental concerns an **integral part of our planning and decision making process** and **commit sufficient resources** to implement effective environmental programs.
- Practice **sound environmental stewardship** of all company-owned facilities and properties and all natural resources under our management.
- **Educate** employees and encourage our stakeholders **to be accountable for environmental stewardship** and to seek innovate ways to **continually improve** our environmental program.
- **Minimise, mitigate or restore** any adverse environmental impacts caused by our operations.
- Maintain **open channels of communication** with employees, consumers and the community about our environmental programs.
- Promote the **efficient use of resources** through cost-effective conservation and resource management programs.
- Ensure the **proper handling and disposal** of all wastes, minimise the creation of waste and the use of non-renewable resources, while pursuing opportunities to **recycle** and **reuse** waste materials.
- **Evaluate our environmental performance** through periodic reviews and audits to ensure that our conduct is consistent with these principles.
